

INDEX.

- Ackworth**, Warren county, 314.
Adair county, coal, 441.
Adair, Adair county, 442.
Adams county, analyses of coal, 504.
Adams county, coal, 445.
Adel, Dallas county, 258.
Age of lithographic limestone, 82.
Age of sandstones of Pine Creek, 80, 82.
Agriculture and Geology, 19.
Albia, 379.
Albion, Marshall county, 238.
Algonkian rocks, described, 103.
Altoona, Polk county, 238.
Appalachian coal field, 94.
Appalachian field, subdivision, 95.
Appanoose county, analyses of coal, 504.
 Coal deposits, 406.
 Moravia district, 411.
 Milledville district, 411.
 Cincinnati district, 419.
American Carboniferous, major members, 67.
Analyses, value of chemical, 500.
 Of Iowa coals, 504.
Andrews, quoted, 165.
Angus, Boone county, 226.
Angus, Greene county, 223.
Anthracite shipped to Iowa, 520.
Area, glaciated, in Iowa, 102.
Artificial coal, 64.
Ash in coals, 502.
Assistants, 4.
Audubon county, 430.
Augusta formation, 85.
Aux Vases sandstone, 85, 89.
Avery, Monroe county, 377.
Avon, Polk county, 288.
- Bain**, H. F., 27.
Bartlett, Fremont county, section, 452.
Base of Carboniferous, 77.
Basin, Carboniferous, of Mississippi valley, 55.
Bayard, Guthrie county, 251.
Bear Creek, district, 392.
Beds associated with coal seams, 52.
Beginning of Coal Measure Epoch in Upper Mississippi region, 90.
Beginning of coal period, uniform conditions, 92.
Bellefontaine, Marion county, section, 385.
Bennington, Marion county, section, 149, 324.
Braddyville, Page county, section, 455.
Blakesburg, Wapello county, 392.
Blastoidal limestone, 84.
Bloomfield, 428.
- Bonaparte**, Van Buren county, 433.
Boone county, analyses of coal, 505.
 Angus district, 226.
 Coal deposits, 225.
 Des Moines valley district, 229.
 Squaw creek district, 235.
Boonesborough, Boone county, 232.
Boone valley mines, 235.
Borings, deep, 139.
 Keokuk county, 117.
 Mahaska county, 117.
Boulders, 136.
Boyleston, Henry county, 482.
Brazil, Appanoose county, 414.
Breccia, crinoidal, 70.
Brick, from under clay, 136.
Briques, economy, 519.
 Manufacture, 577.
 Bond employed, 518.
Briscoe, Adams county, 441, 446.
Buffalo, Scott county, 472.
Burlington limestone, lower, 85.
Burlington limestone, upper, 85.
Bussey, Marion county, 309.
- Calcite**, 129.
Calcareous beds, Coal Measures, 135.
Calvin, S., acknowledgment, 27.
 Age of sandstones at Pine Creek, 80, 82.
Cambrian rocks, described, 104.
Cannel coal, 494.
 Formation, 475.
Carlisle, Warren county, 307.
Carbon, Adams county, 447.
Carbon, Davis county, 427.
Carbon, forms, 41.
Carboniferous, major members, 67.
 Base, 77.
 Basin of Mississippi valley, 55.
 Deposits of eastern Iowa, 465.
 Formations, described, 108.
 General section, 161.
 Geological provinces, 60.
 Subdivisions, 67.
Carboniferous (Lower), 69, 108.
 Classification, 85.
 Definition, biological, 83.
 Delimitation, 74.
 Derivation of limestones, 70.
 Distribution, 72.
 Faunal characteristics, 83.
 Lithological characters, 70.
 Principal section, 78.
 Subdivisions, 85.
Carboniferous (Upper), 68, 91, 108.
 Coal fields, 94.
 Divisions, 95, 118, 120.

- Occurrence of coal, 91.
- Carroll county, coal, 218.
- Cass county, coal, 440.
- Cedar Valley limestone, 107.
- Centerville, 418.
- Section, 407.
- Central Iowa, coal beds, 242.
- Detailed section, 145.
- Generalized section, 151.
- Chalk, Niobrara, 111.
- Character of Saint Louis limestone, 88.
- Chariton, 371.
- Chemical analyses of coal, 499.
- Iowa coals, 504.
- Chemical changes in coal formation, 47.
- Chemung controversy, 77.
- Chester shales, 85.
- Chouteau limestone, 85.
- Cincinnati, Appanoose county, 419.
- Clarinda, Page county, 454.
- Clarke county, coal deposits, 451.
- Classes of sediments, 119.
- Classification of Mississippian series, 85.
- Of strata, principles, 63.
- Clay and shale, 191.
- Clay seams in coal, 189, 266.
- Clay fissures in coal, 189.
- Cleveland, Lucas county, 367.
- Clinton county, 469.
- Coal, anthracite, 492.
- Areas, comparisons, 36.
- Artificial, 44.
- Ash, 502.
- Bituminous, 493.
- Chemical analyses, 499, 504.
- Chemical changes in formation, 47.
- Clay seams in, 189, 266.
- Comparisons, 502.
- Deposition, 91.
- Deposits, extent, 37.
- Deposits of southwestern Iowa, 435.
- Examinations, 23.
- Early productions of counties, 522.
- Fixed carbon, 502.
- Formation, diminution in bulk, 49.
- Formation, history, 45.
- From drift materials, 171.
- Hardness, 498.
- Industry, extent, 521.
- Investigations, 22.
- Kinds, 492.
- Lamination, 497.
- Lithological characters, 136.
- Markets, 527.
- Methods of formation, 171.
- Mining, waste, 511.
- Moisture, 501.
- Number of mines, 525.
- Occurrence, 91.
- Origin, 41.
- Physical properties, 496.
- Poetry, 32.
- Power, 35.
- Preparation for market, 514.
- Production, comparisons, 34.
- Proportion in Coal Measure rocks, 124.
- Prospecting, 131.
- Semi-anthracite, 493.
- Source of materials, 41.
- Sulphur, 503.
- Territory supplied, 527.
- Upper Coal Measure, 139.
- Utilization of dust, 516.
- Value of product, 525.
- Vegetable origin, proofs, 43.
- Volatile combustible matter, 501.
- Waste in dust, 515.
- Coal basin, form of interior, 143.
- Lenticular, 177.
- Coal beds (see also coal seams).
- Central Iowa, 241.
- Character and number, 175.
- Dislocations, 186.
- Extent of individual, 173.
- Irregularities of deposition, 178.
- Northcentral Iowa, 195.
- Roof, 137.
- Southwestern Iowa, 357.
- Coal fields, Appalachian, 94.
- Eastern interior, 96.
- Interior basin, 94.
- Iowa, 23, 33, 36.
- Michigan, 94.
- Western interior, 97, 162.
- Coalfield, Monroe county, 367.
- Coal horizons, 163.
- At Des Moines, 175.
- At Lehigh, 209.
- Coal Measures, area, 23, 33, 36, 99.
- Basal sandstone, 134.
- Calcareous beds, 135.
- Coal beds, 173.
- Economic value, 91.
- Floor, 60, 72.
- General conclusions, 160.
- General considerations, 123.
- Geological relations, 112.
- Limestone, 135.
- Lithology, 123.
- Local stratigraphy, 160.
- Proportion of coal, 124.
- Relations of upper and lower, 161.
- Sandstones, 131.
- Series, 91.
- Shales, 191.
- Stratigraphy, 141.
- Subdivisions, 118.
- Thickness, 144.
- Unconformities, 147, 150, 152, 154, 169.
- Variability of strata, 152.
- Coal Measures (Lower), 68, 119.

- Delimitation, 94.
- Divisions, 94.
- Individuality, 93.
- Lithology, 125.
- Shales, 126.
- Stratigraphy, 144, 154.
- Thickness, 153.
- Overlapping, 113.
- Coal Measures (Upper), 119, 137, 155.
 - Coal, 139.
 - Deformations, 156.
 - Lithology, 125.
 - Shales, 137.
